

## “Dress for Success”

“Dress for Success” often means different things to different people. When interviewing at OCBF, it means making a first impression that actually represents who you are – on the outside as well as the inside.

When first introduced, the interviewer first sees your overall attire. What you wear actually does say a lot about who you are and your desire to excel in your career.

It is best to make every effort to dress appropriately for the job interview, as well as the job. “Dress for a successful interview and for a successful career”.

### Interview Dress Tips:

- Solid color, conservative suit
- Coordinated blouse/shirt
- Moderate shoes
- Limited jewelry
- Clean appearance
- Neat, professional hairstyle
- Sparse make-up, perfume, or cologne
- Manicured nails
- Portfolio or briefcase
- No visible body piercing or tattoos beyond ear piercing for women

While dressing properly isn’t likely to get you the job alone, it will give you added confidence, a key ingredient in making that all important first impression.
